

Hi Tracey

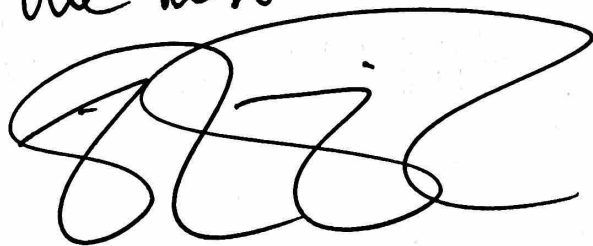

2/03/2021

Thank you so much for agreeing to check out this + my handwriting! It all started when I posted a photo on Instagram and someone said that my handwriting revealed enormous HIDDEN DEPTHS!

Whilst we're all looking for ways to be told how great we are I'm excited to hear what you think my handwriting means. I'm a big fan of Sherlock Holmes and always love the bits where he's assessing someone's mental state from the address on a letter!

I should also admit that the majority of replies to the photo were to say that my handwriting is appalling

All the best
